ABOUT THIS REPORT

- The Major Field Tests are designed to assist institutions in gathering evidence of student learning. The student data provide an opportunity for institutions to evaluate and improve their program's curricula and instruction. The content of each test is informed by surveying academic programs at colleges and universities throughout the United States. For more information about your test scores visit www.ets.org/mft/scores.
- The percentile rank and the average score range in this report are based on the performance of all test takers who tested in the United States between September 2015 and June 2022. The percentile rank indicates the percentage of test takers whose performance is lower than the reported score. The average score range illustrates the middle 50 percent of the test takers.
- Subscores, when provided, represent your performance on key content areas of your discipline.
